Spring & Fahl 1940 Our prices are based upon the value of the plant offered. Not upon its name and measurements. There is a vast difference in quality, even though printing sizes may be alike. Our material has been given ample space for development, has been judiciously pruned and transplanted, and is carefully dug and handled throughout.

As to plant material, quality is self-evident and we mean to maintain the high standard already established.

So, if this catalogue becomes your planting companion, then it will have accomplished one of its purposes.
